

Miscellaneous Tower Accessories

Climbing Ladders

Trylon offers two types of climbing ladders, a 3/4" solid round rail option and a 2 3/8" OD pipe rail option. Each has their own unique characteristics and is offered in four incremental lengths (5', 10', 15', and 20').

The solid round ladder has 3/4" rails and rungs on 18" and 12" centers, respectively. It includes a welded splice tube at the top end for quick and easy slip-fit installation. There are four backing options that cover most tower attachment applications. Other types of attachments are available on page 82 for review.

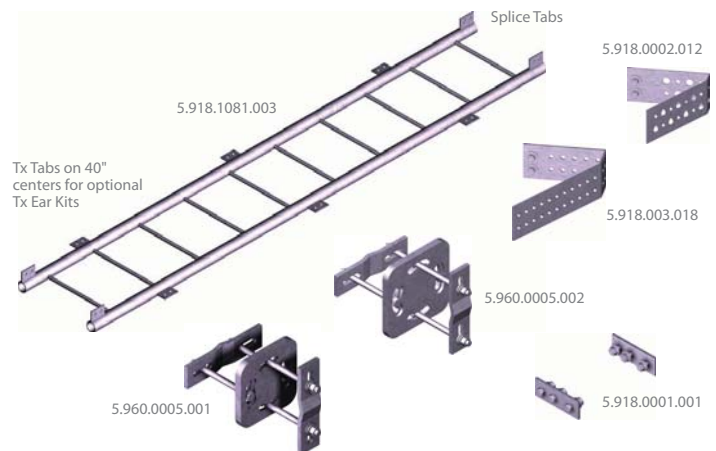

Kit #	Description	Qty	List Price	Wt
Solid Round Climbing Ladder Kits				
5.918.1007.001	20' Solid Round Ladder Section	Ea	\$522	110
5.918.1007.002	15' Solid Round Ladder Section	Ea	\$432	83
5.918.1007.003	10' Solid Round Ladder Section	Ea	\$270	55
5.918.1007.004	5' Solid Round Ladder Section	Ea	\$157	28
Backing Assemblies (optional)				
5.939.0005.002	Small Angle Clip Kit for angle members up to 4" in size	Ea	\$15	1.3
5.939.0005.004	Small Universal Clip Kit for angle members up to 4" in size, or round members up to 4 1/2" OD	Ea	\$23	1.7
5.939.0005.012	Large Angle Clip Kit for angle members up to 4" to 8" in size	Ea	\$38	2.9
5.939.0005.014	Large Universal Clip Kit for angle members up to 4" to 8" in size, or round members up to 6" OD	Ea	\$48	3.9

Note: Splice hardware integral with ladder section.

The pipe rail ladder has 2 3/8" OD rails and 3/4" rungs on 18 3/8" centers and 12" centers, respectively. This rugged climbing ladder is ideal when tower attachments are spaced between 5' and 10'. Splice hardware is required for these ladders, and optional transmission line brackets are available (both ordered separately) to attach directly to the welded tabs. Two standard backing options are offered, but other types are available through the custom side of our business—please call us for more information.

All material is hot dip galvanized.

Miscellaneous Tower Accessories

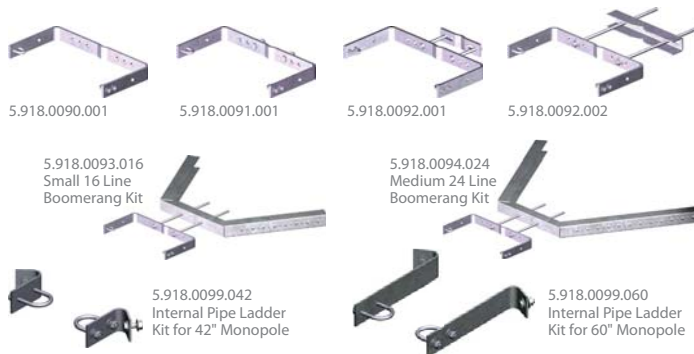

Climbing Ladder Bracket Kits

Trylon's Climbing Ladder Brackets are ideal for most types of communication towers that require a climbing ladder.

They are offered mainly for external climbing ladders, but there is the option of installing to the inside of large monopoles. Depending on the external bracket chosen, they are capable of attaching up to 11" rounds or 8" (60° or 90°) angles.

Optionally kitted are boomerang tx line brackets, which turn this simple ladder bracket into a versatile and cost effective carrier system capable of holding up to 24 runs of 3/4" or 7/16" holes.

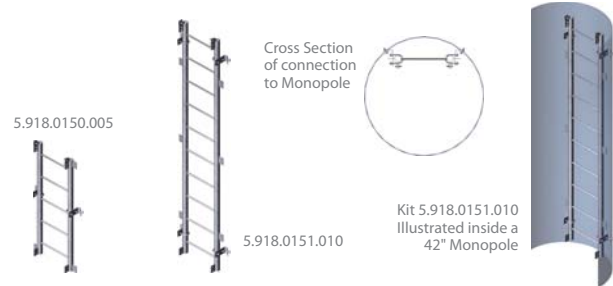

All material is hot dip galvanized.

Miscellaneous Tower Accessories

Ice Shield Kits

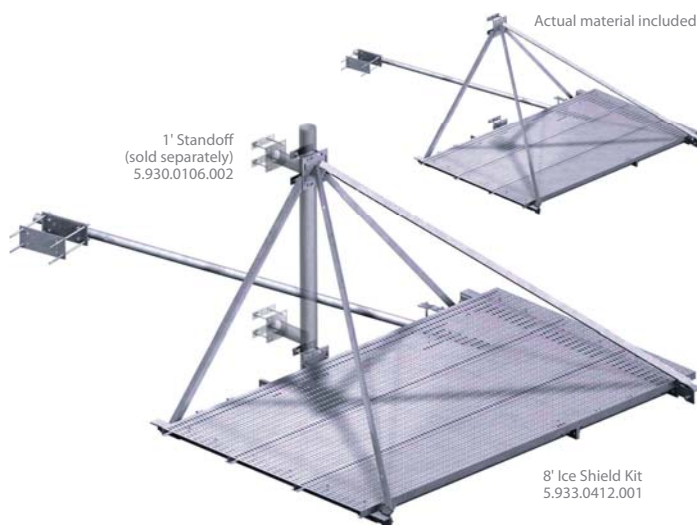

Ice Shield Kits are designed to protect parabolic or high performance dishes up to 15' in diameter. Depending on the shield and site requirements, they are capable of attaching up to 4½" OD round members with the standard attachment hardware. Long 12' tie-backs are provided to better orientate and stabilize the ice shield above the dish. Ice shields typically require various sized standoffs to fully cover the accompanying dish. With this in mind, Trylon has matched each ice shield with appropriately sized standoffs and backing hardware to accommodate almost any tower leg size. Call us for more details, or see pages 4 to 7 for typical standoffs. All material is hot dip galvanized.

Kit #	Description	Qty	List Price	Wt
Ice Shield Assemblies

Other Ice Shield Assemblies

Trylon offers Ice Shield Kits for other applications such as tx-lines, obstruction lights and small panel or omni antennas. These Ice Shields are offered in two coverage sizes, 12" x 24" and 20" x 32".

For attaching, Trylon has pre-kitted the above two options with several different backing options. The first option includes two 1/2" u-bolts to fit 4½" OD round members. The second are our small backing kits that are adjustable up to 4½" OD round members. The third are our medium backing kits that can attach up to 6" (60°) angles or 5⅝" OD round members in size. Our fourth option are our large backing kits that can attach to 8" angles or 11" OD round members. Lastly, we offer two rotatable options in both our medium and large backing kits. These unique kits include a 4½" OD intermittent pipe that further offsets the cover from a tower leg while also allowing the shield to swivel.

All material is hot dip galvanized.

Miscellaneous Tower Accessories

Shelter Steps

Trylon offers two standard step styles (2-Step and 3-Step) that cover the majority of shelter or building access requirements. The smaller 2-Step is 4' wide by 4' deep by 15" high, whereas the larger 3-Step is 4' wide by 5' deep by 22½" high.

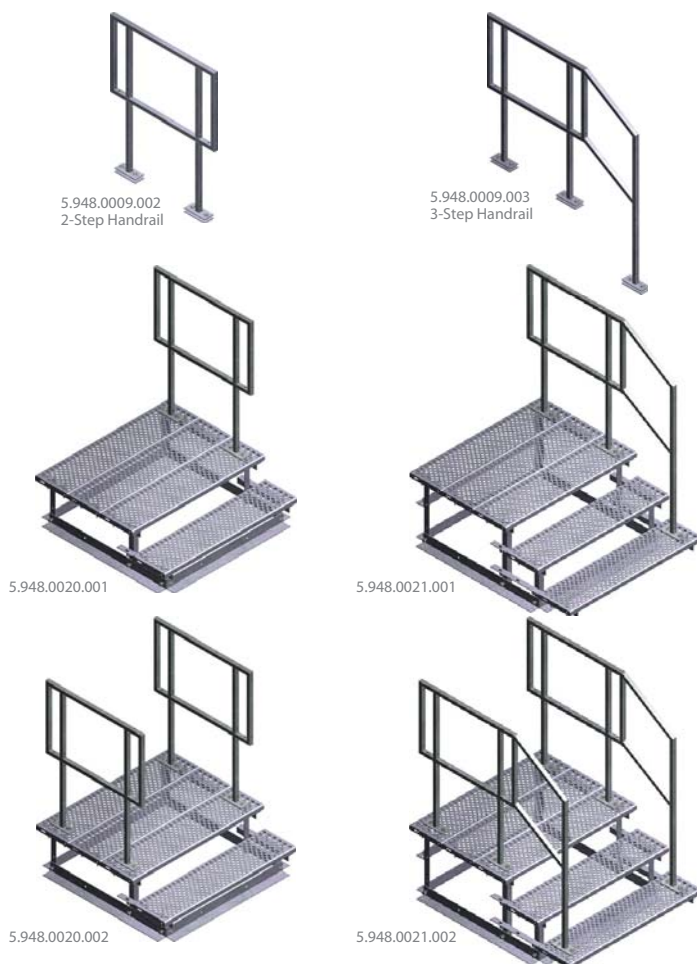

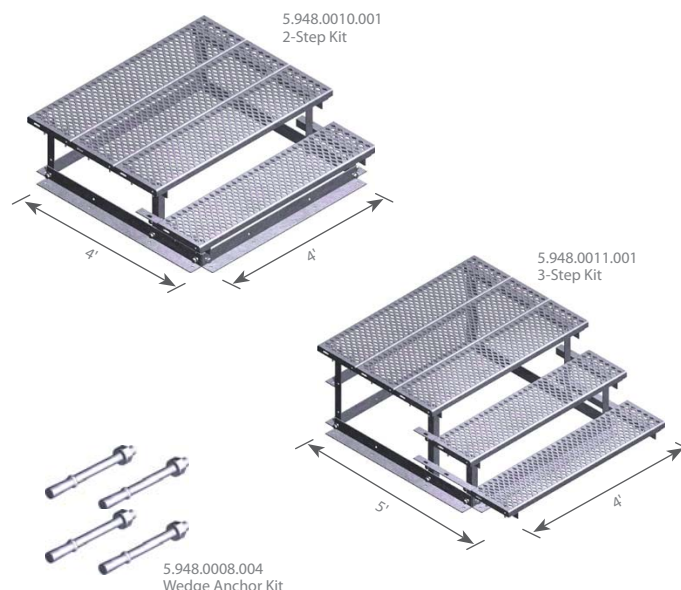

Handrails are also offered in both step styles. These can be purchased for single or double-sided application, or even separately at a later date if the need requires.

Sold separately are wedge anchors to mount the step's base angles to ballast or counterweight such as patio stones or a concrete deck. Trylon recommends a minimum of four anchors to properly secure the steel step to the ballast.

All material is hot dip galvanized for maximum corrosion resistance.

Quick Guide

Size	2-Step and 3-Step versions	Mounts to	Patio stone or concrete deck

Work Platforms

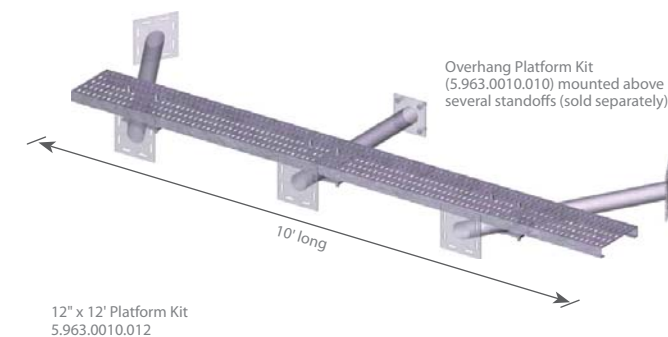

Trylon Work Platforms are available to help installers mount transmission lines or antennas to almost any type of sector or co-location mount.

The first type, the overhang platform, can attach above arms or pipes ranging up to 4½" OD in size depending on the option chosen. They range in widths and lengths and are also available in 30° end chamfers. A minimum of two points are required for safety and rigidity of the platform.

The second type, the hanging platform, mounts below supporting arms up to 4½" OD in size. Two attachment points are required and comes standard with either a 1' x 3' or 1' x 4' serrated safety grating platform.

All material is hot dip galvanized.

(Note: for safety, the worker must be correctly tied-off to a superstructure [according to governing safety standards] while supported on the Work Platforms.)

Working Platform Kit				
5.963.0012.103	12" x 3' Platform and Hardware fits up to 4½" OD members	Ea	\$371	61
5.963.0012.104	12" x 4' Platform and Hardware fits up to 4½" OD members	Ea	\$393	67

Note: 1. The overhang kits in certain instances can be used to widen current platforms. Call us to see to which kit fits your site requirements.
2. The above widths are nominal, 12" is actually 11¾" wide while 18" is actually 18¾" wide. All grating is non-slip serrated diamond grip span.

Miscellaneous Tower Accessories

Cable Safety Climb System

(Ladder Mount Design)

- OSHA compliant, ANSI & CSA certified, CE certified in Europe.
- Operates on highest quality, 3/8" diameter, 7x19 strand, galvanized aeronautic cable. Also operates on 5/16" diameter.
- Smooth slider (sleeve) that reduces "snags" during descent, thereby helping to overcome "free climbing."
- Slider is made entirely of stainless steel, with all stainless steel components.
- Slider easily installed with one hand.
- Factory-installed termination at top of cable eliminates installer liability. Easier installation too!
- Quik-tension™ feature makes cable tensioning easy and fast.
- Mounts to ladder rungs up to 1 1/4" OD.
- Intermediate cable guides provided every 25' (7.62m).
- Unique 2-in-1 top bracket and energy absorber.
- Full line of retrofit accessories available for older towers.

Pipe Mount Kits

Trylon's Pipe Mount Kits are offered in a full array of alternatives that cover almost every antenna installation possibility. These kits are ideal for mounting to other kits (such as t-frames, wireless frames and standoffs) to create additional antenna capacity.

Each kit comes with one pipe and either a single or double crossover kit. The pipes are standardized in either 2 3/8", 3 1/2", or 4 1/2" OD pipe sizes and in 2' incremental lengths. While the crossover kits are matched to both the included pipe and connecting horizontal pipe size. Please see the accompanying figure to further understand our numbering system.

All material hot dip galvanized for maximum protection.

Kit #	Description	Qty	List Price	Wt
2 3/8" Pipe Mount Kits (can attach to 2 3/8" OD horizontal pipes)

Miscellaneous Tower Accessories

Butterfly Hangers

Butterfly hangers can be mounted to tower members through hose clamps or 3/8" diameter hardware (both sold separately). Available for transmission lines ranging from 1/2" to 4" in size, and all material is made from stainless steel.

Kit #	Description	Qty	List Price	Wt.
Butterfly Hanger Kits				
5.1213061	1/2" Butterfly Hanger Kit	10/pk	\$47	1.0
5.1213062	5/8" Butterfly Hanger Kit	10/pk	\$61	1.0
5.1213063	7/8" Butterfly Hanger Kit	10/pk	\$61	1.0
5.1213064	1 1/4" Butterfly Hanger Kit	10/pk	\$61	1.0
5.1213065	1 5/8" Butterfly Hanger Kit	10/pk	\$61	1.0
5.1213066	2 1/4" Butterfly Hanger Kit	10/pk	\$65	2.0
5.1213067	3" Butterfly Hanger Kit	10/pk	\$133	2.0
5.1213068	4" Butterfly Hanger Kit	10/pk	\$143	2.0
5.1213051	3/8" x 3/4" Hardware Kit	10/pk	\$25	1.0
5.1213052	3/8" x 1" Hardware Kit	10/pk	\$27	1.0

Note: LIST PRICE AND WEIGHTS ARE BASED ON PACKAGES OF 10.

Snap-In Hangers

Snap-In hangers can directly mount to tower members that have 3/4" holes and 0.12" to 0.15" thick material. They also include the snap-stack option that allows them to be snapped into each other for stacking capability. Hangers are available for tx lines ranging from 1/2" to 1 5/8" in size. All material is stainless steel.

Kit #	Description	Qty	List Price	Wt.
Snap-In Hanger Kits				
5.1213072	1/2" Snap-In Hanger Kit	10/pk	\$49	1.0
5.1213074	7/8" Snap-In Hanger Kit	10/pk	\$59	1.0
5.1213075	1 1/4" Snap-In Hanger Kit	10/pk	\$59	1.0
5.1213076	1 5/8" Snap-In Hanger Kit	10/pk	\$59	1.0

Note: LIST PRICE AND WEIGHTS ARE BASED ON PACKAGES OF 10.

Angle Adapters

Stainless steel Angle adapters are available in two options: Butterfly, that includes a 3/8" set screw and a 3/8" threaded hole for attaching butterfly hangers; or Snap-In, that includes a 3/8" set screw and a 3/4" hole for snap-in hangers.

Kit #	Description	Qty	List Price	Wt.
Angle Adapters				
5.1213050	Butterfly Angle Adapter Kit	10/pk	\$78	3.5
5.1213070	Snap-In Angle Adapter Kit	10/pk	\$94	3.5

Note: LIST PRICE AND WEIGHTS ARE BASED ON PACKAGES OF 10.

Cold Galvanizing

Cold Galvanizing compound provides a zinc-rich coating to touch-up raw steel edges generally created from field cutting or drilling.

ROTATABLE DISH MOUNT KIT

With over 80 years of innovations Trylon is continually developing new innovative products that provide solutions for our customers in the field. One of our recent innovations is the configurable Microwave Rotatable Dish Mount Kit. It provides a simple and cost effective universal mounting options with the flexibility to turn 180° for any mobility azimuth. Each kit includes hardware for tapered and non-tapered towers.

1. Configurable Orientation
2. Versatile Design
3. Microwave Dish Flexibility
4. Universal Interface

Tapered

Non-Tapered

1. Configurable Orientation

- The mount has 180° turning radius which allows the dish up to a 146° turning radius creating mobility azimuth
- Replaces more expensive face mounts
- Easier orientation

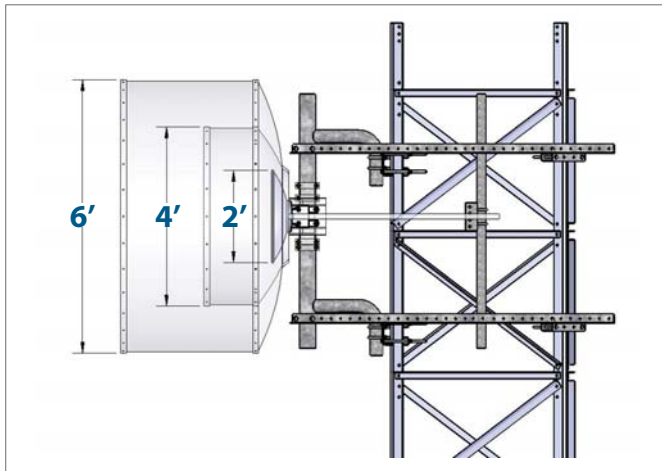

2. Versatile Design

- Quick and easy to install
- Ideal for self-support and guyed towers
- Includes adjustable tie-back to fit any standard tower face width
- Includes two universal tower interfaces, 4-1/2"Ø x 6' mount pipe, mount strut, 2-3/8"Ø vertical pipe to secure dish struts

New Trylon Accessories

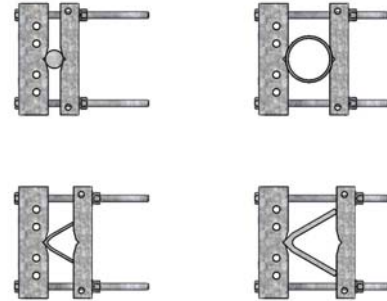

ROTATABLE DISH MOUNT KIT

3. Microwave Dish Flexibility

- Supports one microwave dish
- Fits 2 ft., 4 ft. or 6 ft. microwave dishes

Fits 1-1/4"Ø to 6-5/8"Ø (round legs)

**Fits a maximum 6" for 60° angles
or 5" for 90° angles (angle legs)**

4. Universal Interface

- Designed to fit round and angle members
- Significant costs savings since face mounts are not needed
- Maximum round leg sizes fit 1-1/4"Ø to 6-5/8"Ø round
- Maximum angle leg sizes fit 6" for 60° angles or 5" for 90° angles
